WHAT IS YOUR PRACTICE PHILOSOPHY?

My Philosophy is to provide personalized care with elite customer service in mind, while providing the best outcome to each and all of my patients. Everyone's needs and bodies are different, so I approach each unique case with the utmost patient care and safety. I understand that my patients trust me and invest their valuable time and resources to undergo surgery. My team and I will spend a great deal of time to understand our patients' unique wishes and goals so that we can realistically meet their expectations. I feel privileged to be able to have such a great impact on them both physically and emotionally.

SGK PLASTIC SURGERY

SGK Plastic Surgery is a premiere plastic surgery practice located in The Woodlands. It has garnered the reputation to be "the place" for plastic surgery. It has attracted patients from not only the greater Houston area but also throughout the country. For the past three consecutive years, SGK Plastic surgery has been awarded the Black Diamond status by Allergan, Inc. This award recognizes the top 1% of providers in the country for their expertise and experience in using Allergan products which include Natrelle Breast Implants, BOTOX, Juvederm, Voluma and Kybella. We spent some time with Dr. Sugene Kim to gain the insights into her successful practice.

"ENHANCING YOUR POTENTIAL
WITH PERSONALIZED CARE"

WHAT LED YOU TO PLASTIC SURGERY?

After I had cardiac surgery at the age of 13, I knew I wanted to be a surgeon. During my general surgery residency, I realized I wanted to specialize in plastic surgery. I loved the technical challenge and innovative nature of plastic surgery. I also loved that I could transform my patients' bodies both functionally and cosmetically.

HOW WOULD YOUR PATIENTS DESCRIBE YOU?

My patients see me as a warm, caring and approachable surgeon. One of my recent patients told me that "I was a little scared to come to a plastic surgery office; but I cannot believe how easy-going and nice you and your staff are." I care about my patients and how my surgery impacts their bodies. I want them to be well-informed about their procedures and what to expect during the recovery. I really enjoy talking with patients and learning about their story, needs, and goals. I love what I do and the wonderful patients that I am fortunate to care for.

HOW WOULD YOU DEFINE YOURSELF?

I am a mom, wife, surgeon, and business woman. I love my family and the work that I do. I am blessed to have a husband who understands my work. I am thankful that we have two healthy, beautiful boys. I wouldn't be able to do the work that I love without the support of my family and staff.

HOW DOES BEING A FEMALE DOCTOR HELP YOU RELATE TO YOUR CLIENTS?

As a mother of two boys, I understand how women's bodies change during and after pregnancy. I understand the insecurities that can come after pregnancy. I also face challenges to juggle work and family. When discussing surgery and recovery process, I relate to working moms and stay-at-home moms who have to consider downtime for work and caring for their family.

DESCRIBE YOUR PRIVATE ON-SITE SURGERY CENTER.

I am very proud of our surgery center and our surgical staff. I think we have the best caring and knowledgeable clinical staff. With safety always being a top priority, our on-site surgery center is certified by the American Association for Accreditation of Ambulatory Surgery Facilities (AAAASF). It is not only safe, but also private, comfortable, and convenient, as it is located in the same building as our practice.

WHAT IS NEXT FOR YOU AND SGK PLASTIC SURGERY?

Our goal is always to provide the best outcome for our patients while delivering exceptional customer service. We will continue to strive to meet and exceed our patients' goal. In the next few years, we will expand to cover more locations in greater Houston with the addition of new surgeons and staff.
