

DR. SUGENE KIM

SGK PLASTIC SURGERY

THE WOODLANDS, TEXAS

Diplomate, American Board of Plastic Surgery

American Board of General Surgery

WHAT IS YOUR PHILOSOPHY?

To provide personalized care with elite customer service and achieve the best possible outcome for each patient. This means that my team and I take time to understand our patients' unique wishes and goals so that we can realistically meet their expectations. I want our patients to be happy with their results and service so that we have a long-term relationship with them.

WHICH PROCEDURES ARE YOUR FAVORITES TO PERFORM?

My clinical focus is cosmetic surgery of the breasts, body and face, and I specialize in breast augmentations, breast lifts and body contouring after pregnancy and/or weight loss. I love body contouring procedures whether they are breast, body or face, as I can see the changes that I create on each patient. I also enjoy nonsurgical facial procedures such as Ultherapy, Botox and fillers.

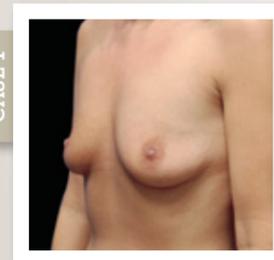

WHAT NEW TRENDS ARE YOU SEEING AT YOUR PRACTICE?

In my practice, I see more and more males wanting facial rejuvenation and body contouring procedures. I've also seen a rise in nonsurgical procedures such as Cellulaze, an FDA-approved laser therapy treatment to decrease the appearance of cellulite, and Ultherapy, an ultrasonic modality to lift and tighten skin on the face and neck.

PERSONALIZED PATIENT CARE

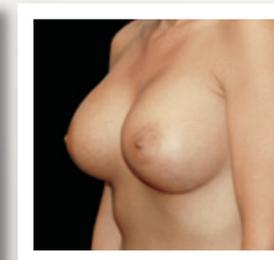

Dr. Kim's practice revolves around a core philosophy of personalized care. "Every patient's body is unique and their goals can be different," says Dr. Kim, a member of the American Society of Plastic Surgery (ASPS). "I spend a lot of time during my consultations with patients to identify the results they desire. I then tailor my surgeries according to each patient's uniqueness with their individual body shape and objective in mind. I want them to really understand their surgical plan and recovery course so that they are happy with their results. I feel privileged to be able to have such a great impact on them both physically and emotionally."

BEFORE

CASE 1

AFTER

VOLUME BOOST

Wanting to increase her breast size (34A) by at least two sizes, this 30-year-old patient sought Dr. Kim, who performed a breast augmentation with Natrelle 550-cc implants.

BEFORE

CASE 2

AFTER

SLIM SILHOUETTE

Unable to achieve a flatter stomach with diet and exercise, this 34-year-old patient visited Dr. Kim, who performed a tummy tuck with liposuction to enhance feminine contours.

WHAT LED YOU TO PLASTIC SURGERY?

After I had a cardiac surgery at the age of 13, I knew I wanted to be a surgeon. And during my general surgery residency, I realized I wanted to specialize in plastic surgery. I loved the technical challenge and innovative nature of plastic surgery. I also loved that I could transform my patients' bodies both functionally and cosmetically.

HOW WOULD YOUR PATIENTS DESCRIBE YOU?

My patients see me as a warm, caring and approachable surgeon. I care about my patients and how my surgery impacts their bodies. I want them to be well-informed about their procedures and recovery. I also want our patients to have a wonderful experience from beginning to end.

DESCRIBE YOUR ON-SITE SURGERY CENTER.

With safety always being a top priority, our on-site surgery center is certified by the American Association for Accreditation of Ambulatory Surgery Facilities (AAAASF). It's not only safe, but also private, comfortable and convenient, as it is located in the same building as our practice.
